BTSLogic, Inc. Acquires BTS Solutions A/S

BTSLogic's Speech Automated DA Solution To Be Available To BTS Solution's Operator Services Customers

College Park, MD, February 27th, 2004 - BTSLogic announced today the acquisition of the privately-held "BTS Solutions, A/S" and its affiliated company "Bo Tveden Development, A/S", as well as all assets of the two companies.

BTS Solutions, based in Arhus, Denmark, has been developing software-based Directory Assistance and information search engines since 1987 for carriers and service providers world-wide, including TeliaSonera AB (NASDAQ: TLSN), Telenor ASA (NASDAQ: TELN), and US Department of Defense.

Fred Korangy, Chairman, President and Chief Executive Officer of BTSLogic, said "BTSLogic has now merged the best of the breed in DA and information search services with the best of the breed in automated DA solutions. This combination creates a world-class offering that is unsurpassed in the industry".

Korangy continued, "BTS is a proven and established player in the DA field with a global customer base of top tier carriers in nearly every region of the world. Their product is already integrated into BTSLogic's Speech Enabled Directory Assistance system. By combining forces, we provide a better product to customers of both companies".

Niels Arne Baden, Chief Executive Officer of BTS Solutions said "Joining BTSLogic team allows us focus on our core competencies. Our combined strength allows us to serve our customers at a much higher level than before. We are looking forward to taking advantage of this opportunity, and expand the range of solutions we offer to our customers."

BTSLogic intends to continue to provide state of art in DA solutions to the market, and expand its operational base worldwide. Customers of former BTS Solutions A/S and Bo Tveden Development A/S will continue to receive world-wide support as well as have access to new solutions offered by BTSLogic.

About BTSLogic

BTSLogic (<http://www.BtsLogic.com>), a subsidiary of LogicTree, Corp, is the leading provider of MultiModal Automated Directory Assistance solutions. BTSLogic's SEDA^(TM) (Speech Enabled Directory Assistance) service is a speech and multi-modal solution, offering full automation for DA, Reverse DA, and Enhanced DA services.
