## **LogicTree Named One of Maryland's Fastest Growing Technology Companies in Deloitte's Technology Fast 50 Program**

*CEO Attributes Passion of Employees to its 3095 Percent Revenue Growth*

Laurel, MD, September 29, 2006 — Deloitte has named LogicTree to the prestigious Technology Fast 50 Program for Maryland, a ranking of the 50 fastest growing technology, media, telecommunications and life sciences companies in the state by Deloitte & Touche USA LLP, one of the nation's leading professional services organizations. Rankings are based on the percentage revenue growth over five years from 2001–2005.

"Deloitte's Maryland Technology Fast 50 companies have shown the strength, vision and tenacity to succeed in today's very competitive technology environment," said Andrew Hars, Deloitte's southeast regional managing partner for the Technology, Media and Telecommunications Industry Practice. "We applaud the successes of LogicTree and acknowledge it as one of the very few to accomplish such a fast growth rate over the past five years."

LogicTree's CEO Fred Korangy credits the passion of his employees and the company's dedication to their personal development with the company's 3095 percent revenue growth from 2001–2005. Korangy said, "We've always focused on hiring passionate individuals with talent, and a dedication, company-wide, to put these individuals in a position to succeed."

LogicTree's revenues increased 3095 percent from 2001 to 2005. "Sustaining high revenue growth over five years is an exceptional accomplishment," Hars said. "We commend LogicTree for making the commitment to technology and delivering on the promise of market longevity."

To qualify for the Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2001 and \$5,000,000 in 2005, be headquartered in North America, and be a company that owns proprietary technology or proprietary intellectual property that contributes to a significant portion of the company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology.
