**LogicTree Corporation Opens New Headquarters in Maryland Science & Technology Center**

*LogicTree Prepares for Continued Outstanding Growth*

**MARYLAND SCIENCE & TECHNOLOGY CENTER, BOWIE, MD** - LogicTree Corporation ([www.logictree.com](http://www.logictree.com)), the leading supplier of real-time customer service applications that recognize natural speech via telephone, today announced the opening of its new headquarters in the Maryland Technology and Science Center in Bowie, MD.

LogicTree offers a suite of products for the Transit Industry. Their TransitSpeak™ systems let users gain access to automated trip planning, routes and scheduling services, paratransit trip scheduling and 511 traveler information. LogicTree's speech-enabled solutions allow callers to receive self-service information via natural sounding spoken commands. They serve clients within the transportation industry such as the Florida Department of Transportation and the Washington Metropolitan Area Transit Authority.

“Moving into our new headquarters is the result of our strong and well-managed growth over the past two years,” said Fred Korangy, Co-Founder and CEO of LogicTree. “Having more than doubled in size during that timeframe, we have expanded our space, so that we have a solid infrastructure for team synergies as we prepare for the next decade.”

LogicTree's technology covers the entire spectrum of fully enhanced speech enablement for the transit industry. Their solutions are able to integrate with virtually any legacy system that is being used by their transit clients. LogicTree also provides the technology for “511” systems in Florida, North Carolina, Virginia, New Jersey and the City of St. Louis, MO.

**About Logic Tree ([www.logictree.com](http://www.logictree.com))**

Founded in 1997 by a team of experienced designers of telecom switches and IP gateway product designers, LogicTree is committed to providing natural voice access for real-time customer service applications and data. LogicTree is headquartered in Maryland with offices in Denmark.
